Home Care Assistance Introduces Online Learning Platform for Dayton Family Caregivers

The Family Learning Center® will make it easier for family caregivers to find training and support resources to help them better care for the needs of their loved ones at home

(Dayton, Ohio – May 22, 2018) [Home Care Assistance](#), Dayton's premier home care provider, is introducing the [Family Learning Center®](#), making it easier for family caregivers to find training and support resources to help them better care for the needs of their loved ones at home.

The Family Learning Center® is free for family caregivers who provide home care for friends or loved ones who are homebound, suffer from a debilitating disease or who are simply aging and need companion care. The site includes over 50 training topics created just for family caregivers that cover everything from basic caregiver training, to transitioning of care, to Alzheimer's disease and memory care.

"Our Family Learning Center® courses focus on multi-generational family caregiving and are designed to be immediately available to families who need help, but don't always know where to turn for information or support," said Mark Febus, Owner of Home Care Assistance. "We wanted to make it easy for family caregivers to always have a caregiving resource to turn to whenever they need it. The Family Learning Center® is that resource and it's available online 24/7, simply by logging on to the learning platform."

Family caregivers can visit the [Family Learning Center®](#) and register with their name and email address (no password required!). Once registered, caregivers are provided a list of courses that will take them step-by-step through a specific topic with engaging and interactive video. The courses are narrated, but can also be read onscreen, allowing caregivers to learn through the method most comfortable to them. In addition to courses, the Family Learning Center® provides a selection of videos and tip sheets that focus on relevant and timely topic for the family caregiver.

"There aren't a lot of resources available to family caregivers to make their challenges easier," Mark Febus said. "The new Family Learning Center® is one way we can help. We hope it answers a lot of questions, gives them some much-needed training and support and allows caregivers to keep their loved ones more comfortable and remaining at home."
